Weather Hazy Winds E 8-14K Seas 2'

H_2O Surf.Temp 28° C Time 1128 Below Mid-Depth 28° C Time 1131 C or F (circle one)

Are there incidents involving endangered or protected species? Yes ★ **No**____

Port Draghead: debris Deflector: OK

Stbd Draghead: debris Deflector: OK

Port Discharge, Fore: debris

Port Discharge, Aft: ★ body parts Loggerhead sea turtle

Stbd Discharge, Fore:

Stbd Discharge, Aft:

Port Overflow:

Stbd Overflow:

Comments: Caretta caretta body parts found in Aft lander screen. See report.
Body parts appear fresh. In the same digging area, 17 hours previously, the head of a Caretta caretta was retrieved from the Aft lander screen. Approximate sizing of head and body parts match, location is same.

This could be the same turtle, however the fresh appearance suggests 2 separate takes.

Bridge Watch Summary

Species	# of Animals	Time	Location & Comments

Observer(s) On Duty: Andrew Brown / Rory Bahadur
