

Innovative Technology Perspectives Long-Term Monitoring

“...the appropriate goal is to find a **good answer**, one that the decision maker considers a satisfactory guide for action... rather than an optimal solution”

Hiller & Lieberman, 1980, pp. 770-777

The significant problems we face cannot be solved at the same level of thinking we were at when we created them.

- [Albert Einstein](#)

Systemic issues – Conceptual Model:

- Lack of adequate site conceptual model.
- Incorporate modifications and updates to conceptual site model with time to increase understanding.
- Different requirements may require different sampling strategies for technology deployment process at the same time?
