

## **Ecology, Restoration, and Management of Hawaiian Stream and Riparian Systems**

The U.S. Army Corps of Engineers, Engineer Research and Development Center, is sponsoring a workshop addressing the ecology, management, and restoration of Hawaiian stream and riparian ecosystems. The intent is to bring together agency, organization, and university personnel representing a broad array of disciplines to (a) present the current state of the art and science for restoration of Hawaiian systems, (b) identify gaps in knowledge, (c) improve communication and coordination among interested parties, and (d) develop means by which the restoration and management of these systems can be improved.

**Dates:** 20-22 May 2008

**Location:** Windward Community College, Oahu  
Hale Akoakoa, Rooms 103 & 105

**Cost:** No charge for attending

**Registration:** You must register for this workshop to attend. To pre-register, please send an email with your name, affiliation, and contact information to:
